

CAB DISPLAY

ON-FARM

Small size additional display designed to remotely display the value of the weight indicator. To be preferably used in the cabin of the tractor.

FEATURES

- High efficiency red LED display 25 mm high
- Simple plug & play connection to all dinamica generale indicators with the WiNET™ interface via serial cable connection
- Quickly turn a wired CAB display into radio frequency by adding 2 WiNET™ modules and 1 standard power cable

BROCHURE

BENEFITS

- For applications where you want to know the weight but don't want to get out of the cabin, the CAB DISPLAY fills the need
- Make loading process quicker and more efficient
- Keep overloadings' risk always under control
- Lower energy consumption
